# Song Saa Sanctuaries

Places of peace and gentleness where mind, body and soul are restored to their natural stillness and harmony.

At Song Saa Private Island we strive to embrace the Buddhist tradition of 'metta bhavana' or loving kindness. We are inspired by the Buddhist principle of reverence for all beings and aim to follow the tradition of offering blessings to others.

Song Saa's focus on conservation and 'luxury that treads lightly' is a commitment to source only sustainable, wild harvested natural products from artisan producers, in ways that benefit local communities.

The results of this perfect union are the Song Saa Sanctuaries - *places of peace and gentleness where mind, body and soul are restored to their natural stillness and harmony.*

# Special Occasions

At Song Saa we offer bespoke experiences for your special occasion. The romantic setting and privacy of Song Saa make it ideal for a wedding venue or anniversary party, as well as for executive retreats.
