Song Saa Island

Song Saa - Khmer for "The Sweethearts" - is located on a pair of private islands, in Koh Rong just off the coast of Sihanoukville in Cambodia. Opened at the end of 2011, the Song Saa Private Island Resort immediately joined the ranks of the finest Asian resorts offering an eco-luxury escape and sustainable approach.

Song Saa Private Island counts nine overwater villas and eighteen garden and beach villas, each one decorated by the owner herself with the finest natural materials and crafts such as castoff driftwood forming bedside tables, outside showers made of tree trunks, pieces of brass Moroccan lanterns. Perched among the canopy, the Jungle Villas offer more privacy and unbeatable views while the overwater villas are an absolute must for those looking for the ultimate island escape with private access to the sea.

The resort offers also a world-class restaurant and tailor-made dining experiences making each moment of the stay a once a lifetime experience. Guests can enjoy a romantic beachside picnic on a neighbor island, explore the mangrove by kayak, travel round the islands and venture into the rainforest or get involved in the extensive research and conservation work carried out by the eco-friendly hotel.

Song Saa. Foundation

Inspired by a passion for Cambodia and a commitment to sustainable development, the Song Saa Foundation initiates and promotes

projects that improve the wellbeing of communities and natural environment of the Koh Rong Archipelago and beyond.

Working effectively with local villagers is a core requirement for the success of any sustainability initiative. The Foundation works across a variety of areas including education, community health, waste management and livelihood activities to build a sustainable future for the villagers of the Archipelago. With a legacy of pioneering marine reserve management in Cambodia, the Foundation continues to nurture and support endeavors to protect the Koh Rong Archipelago's unique ocean environments. The Song Saa Foundation works closely with a variety of international organisations, as the Prince Albert of Monaco II Foundation which will contribute to the creation of Cambodia's first marine protected area, the Koh Rong marine fisheries management area.
