

SONG SAA
PRIVATE ISLAND

————— FESTIVE SEASON IS JUST AROUND THE CORNER —————

CHRISTMAS

NEW YEAR

Situated within the pristine turquoise waters of Cambodia's Koh Rong Archipelago and as Cambodia's first luxury coastal resort, Song Saa Private Island comprises two islands, Koh Quen and Koh Bong lying side by side, locally known as Song Saa which is Khmer for sweethearts. In celebration of Christmas and New Year, Song Saa Private Island has curated a special programme of activities and experiences for the upcoming festive season.

Christmas offers families, friends and couples a unique combination of comforts on Christmas day with reminders of the festive season back home and around the clock reminders of being on a private tropical island surrounded by the turquoise waters of the Gulf of Thailand. Festive inspired canapés and international musical performances will be readily on hand for guests while enjoying the breath-taking sunset from Vista Overwater Lounge. Guests can also indulge in the culinary experience with a sumptuous Christmas inspired dinner either under clear blue skies or a canopy of stars.....

Boxing day allows families to share a moment of happiness with the children in the local village, visit the Koh Rong island community of Prek Svay and to pass on gifts from the Song Saa Foundations Christmas "Pack for a Purpose" – our present initiative.

New Year festivities are centred on a schedule of fun, unique and intimate events which will guarantee a truly magical and memorable way to ring in the year. Wrapping up 2019 with a cruise trip on a traditional fishing boat, cruise into the majestic sunsets of the Gulf of Thailand and watch the sun set below the horizon.

Kick start your new year day by exploring the nearby Island of Koh Rong, a true beauty of natural Cambodia. For a magical experience, the hotel team will take you on a Bioluminescence journey, exploring a sea twinkling with phytoplankton.
