## GLOBE-TROTTER'S TOP FIVE HONEYMOON DESTINATIONS FOR 2018

*Ramp up the romance at this year's honeymoon hotspots.*

**If you're looking for the perfect mini-moon...**

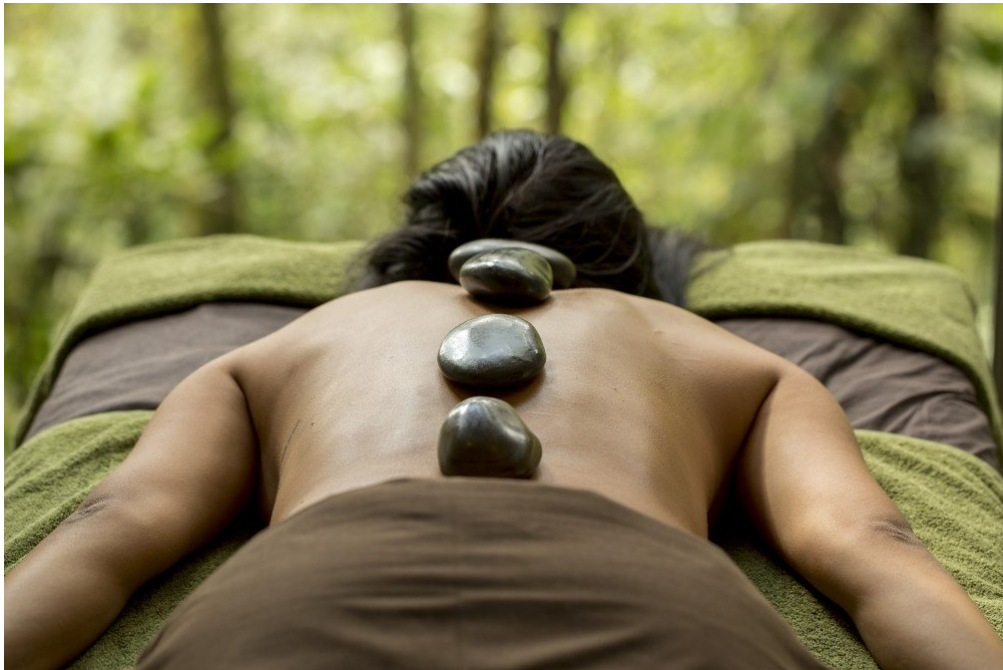

Seville is having something of a moment right now. Voted one of Lonely Planet's must-see cities for 2018, Seville oozes sultry romance. Like a lovechild between Catholic grandeur and Moorish glamour, the city is full to the brim with countless cobbled streets winding their way to distinctly Spanish architectural treasures.

The Alfonso XIII hotel channels that unique Andalusian opulence in a lesson in luxury. As well as being just moments from the imposing cathedral and beautiful Royal Alcazar, this 1920s hotel also houses one of Seville's few swimming pools - perfect for when the temperatures start soaring.

## Make sure you bring...

**If you're looking for unadulterated romance...**

Forget Mauritius or the Maldives. For a path less trodden by the newly-wed brigade, head to the equally idyllic but undeniably less mainstream Song Saa in Cambodia. Known locally as 'The Sweethearts', this private island hotel was practically made for honeymooners.

Song Saa's 27 stylish, sustainable villas either nestle in the jungle or perch on stilts over the sea for complete privacy – perfect for sampling the hotel's menu of upscale Khmer classics on your own private terrace as you watch the sun set over the water. Afterwards, try the hotel's 'night spa', which lets you relax under the Cambodian stars or take a 'bioluminescence swim' where a speedboat whisks you away for a private dip in the ocean's moonlit waters.
