# From Aisle to Isle: The Best Locations To Get Married AND Honeymoon

| *Image credit: Justin Mott/Mott Visuals Weddings*

---

We love everything about this Southeast Asian resort. It's got the 'dive-straight-in' waters, lush landscape, relaxing activities from yoga to sailing and (obviously) stunning, thatch-roofed over-water villas. But what really sets this wedding moon destination apart is its commitment to improving the lives of Cambodian communities. Book into to Song Saa for a definitively wholesome wedding destination.
